## Projects Underway

- LMIG 2018
- LMIG 2019
- McIntosh Parkway
- Newnan Centre LINC
- Dog Park
- Jefferson/Jackson/Clark Intersection Study

### LMIG 2018 & 2019

The LMIG (Local Maintenance Improvement Grant) 2018—2019 consist of repaving and the maintenance of an approved list of local streets. The program is funded through GDOT and SPLOST 2013 as required matching funds. The 2018 program has begun with Piedmont Paving being the contractor. The 2019 project will possibly begin late 2018.

### McIntosh Parkway

This project is the construction of a parkway that will connect Newnan Crossing Bypass to Greison Trail and on into downtown lining up with East Washington Street. Although, the City has ran into a few road blocks completing this project and hope to have this completed in early 2019.

### Newnan Centre LINC

This is probably the most talked about project happening in Newnan right now. This multi-use trails have been a trend for some time; popping up in Carrollton, LaGrange and Atlanta. The City of Newnan wants to join the trend by offering a trail system here through out the City. Our first phase will be what we are calling the Newnan Centre LINC, which is actually the 4th section. This section is less than 2 miles and will go from Newnan Crossing Blvd East to Highwoods Parkway. Construction to begin summer 2018.

### Dog Park

The Dog Park will be located on Sprayberry Road. This park will include a large dog section, a small dog section, a public restroom facility and a couple of pavilions. The estimated cost for this project will be \$700,000.

### Jackson/Jefferson/Clark/Bullsboro Operational Study

This project consist of a study that could make feasible changes to this very confusing intersection. The budget is \$95,000 and the majority of the funding will come from an ARC Grant. This project has kicked off and will hopefully wrap before the end of 2018.

- City Hall Additions
- CAFI Building Renovations
- Fire Station # 4

## City Hall Addition

This project consist of the construction of a two (2) office suite on the ground floor of City Hall. The end users will be the Human Resource Department. Human Resource functions oftentimes require dedicated and isolated workspace for the privacy of employees and their families. This addition will provide them that as well as additional space for a new Risk Manager budgeted for 2018.

## CAFI Building Renovations

This project consist of the renovations of the CAFI Building located at 53 Savannah Street. The renovations are being completed in the memory of Minnie Robinson for her dedication to the City of Newnan and the surrounding areas. A bronze plaque will be located on the exterior in her honor. After construction is complete CAFI will locate back into the building to offer many programs as in the past.

## FIRE STATION 4

The above concept drawing is of a new Fire Station that will be constructed off Millard Farmer Industrial Blvd. starting early summer 2018. Total budget \$3,000,000. Funding comes from SPLOST 2013 and Impact Fees.
